NORTHERN ONTARIO WALLEYE TRAIL

2020 Annual Report

Greetings NOWT Anglers

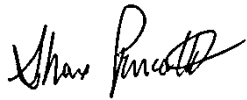

After an incredible debut 2019 Championship in Geraldton, 2020 was not the season we had hoped and planned. The safety of our anglers and their communities across Northern Ontario was our primary focus, so unfortunately like the rest of the world, our gatherings have been put off until 2022. We appreciate the support from our community partners and anglers in this decision.

I had different visions for my first term as your President of the Northern Ontario Walleye Trail Board of Directors. Despite COVID-19, we have continued to work in the background with our sponsors and community partners to ensure a better angler experience once our full tournament schedule resumes. We are actively working to secure more partnerships and invite input from our anglers and stakeholders.

Your NOWT Board of Directors is not waiting for the shot-gun start. Our momentum has continued to push forward with exciting announcements to come!

We look forward to a safe and healthy return to competition!

Tight lines,

Shane Turcotte
