2021 Annual Report

Greetings NOWT Anglers

I am sure I am not alone in saying that I am relieved and overjoyed to finally be sending this note with the certainty that we will all be back to doing what we do best this year. Committees have been struck, plans are being made, trophies are being built... All NOWT Sanctioned events will happen this season!

2021 was another year of difficult decisions, without sanctioned events due to the uncertainty and restrictions of the COVID-19 pandemic. Pandemics can't stop us though, and work continued with anticipation of our great return in 2022. The NOWT Board of Directors worked to maintain the connections and commitments we have built over the past few years with our partners and sponsors. Our tournament series was founded by anglers for anglers in our Northern Ontario communities and we wanted to make sure that our anglers, our volunteers, our communities would be prepared to return as if the challenges of COVID had never happened. Our team is resilient and now, we are better prepared to face any challenge ahead.

I want to thank every member of our board, they are volunteers who continued to serve throughout our challenges with the momentum it takes to be ready to plan our return this season. I am proud to say we have added additional sponsors and a new sanctioned event in Hearst bringing our total back up to 7 tournaments across the season.

Our Championship competition will carry forward this year as previously planned, in Kapuskasing and I want to thank that host committee for stepping up to be our host and to take on this challenge. Stay tuned as we will be announcing our 2023 Championship destination during this year's season.

On behalf of the NOWT board, we look forward to seeing everyone back on the water and visiting the communities we all love in Northern Ontario.

Tight lines,

Shane Turcotte
